Of the Eclipses this year.

There will be five Eclipses this year. First will be of the Moon, which will be visible to us in *England*; the middle thereof will be with us at *Cambridge*, *January* 12 at 23 min. past 5 of the clock in the morning. The second of the Sun, *January* 26 at 9 of the clock at night. The third will be of the Moon *July* 7, 40 min past 8 at night. The fourth will be of the Sun, *July* 23 at 2 of the clock in the morning. The fifth will be of the Sun *December* 17, about 5 of the clock in the morning.

Times prohibiting Marriage this Year.

Marriage comes in on the 13 day of January, and at Septuagesima Sunday it is out again until Lowsunday; at which time it comes in again, and goes not out till Rogation-sunday: thence it is forbidden until Trinity-sunday: from whence it is unforbidden till Advent-sunday: but then it goes out, and comes not in again till the 13 day of January next following.

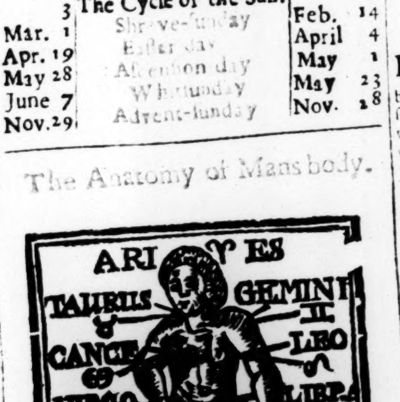
The Anatomy of Mans body.



Astra regunt homines, sed regit astra Deus.

To find the time of the Tide in a more exact manner than heretofore.

Days after the Change or Full, the Moon is South at	0	1	2	3	4	5	6	7
	12	12 48	1 36	2 24	3 12	4 0	4 48	5 36

Days after either of the Quarters the Moon is South at	0	1	2	3	4	5	6	7
	6	6 48	7 36	8 24	9 12	10 0	10 48	11 36

First find the new moon, full, or quarter, in the kalender; then count how many days are past either of those, and under the same number of days past, you shall here see the time that the moon will be south the same day: Then look for the Haven or Port you desire, and where the hours and quarters stand before the same, there it is high-water so many hours and quarters before the time above found: But where the hours and quarters stand after the place, there it is high water so long after the time first found. *As for example:* The Moon being five days past the change, and so five days old, I find in the table, that five days after the change the Moon is South at four a clock, which makes full sea at Quinborough, Southampton, &c. But at Plimouth, Dover, Harwich an hour and an half sooner: that is, at two a clock and thirty minutes: but at London, Timmouth, and Amsterdam, three hours after.
